Active Minds® Presents Puerto Rico

Wed - May 9, 2018, 3:00 - 4:00PM

Devastated by hurricane Maria this past September, Puerto Rico is still far from fully recovered. Total losses from the storm are expected to exceed \$100 billion. Hundreds have died and the rebuilding of infrastructure has been much slower than many had hoped. Join Active Minds as we review the history of this important U.S. Territory, including how U.S. policies have impacted its economy and its people over the past century. We will end with a look forward as to what the future may hold for the island as it continues to rebuild. Cost: Free. RSVP appreciated.

Active Minds® Presents the Future of Bees

Wed - June 13, 2018, 3:00 - 4:00PM

Found on every continent except Antarctica, bees are vital pollinators, making possible much of the food humans eat. In recent years, however, crucial bee species have experienced significant loss. Since the 1990's, the bumblebee population has plunged almost 90%. Additionally, since 2006, a malady called Colony Collapse Disorder has afflicted honeybee populations. Join Active Minds as we dive into the world of bees and examine the factors that are affecting these important species. Cost: Free. RSVP appreciated.
