AN UPDATE ON CORONAVIRUS DISEASE 2019 (COVID-19)

Thursday, March 12, 2020

There is nothing more important to RiverPointe than the safety of our residents, their family, guests and our staff.

For 32 years we have diligently worked to ensure that RiverPointe is clean top to bottom. We have always exceeded the industry standard. Now, in light of the Corona Virus and the CDC guidelines we have doubled our efforts and will continue to do so until daily life moves back to normal!

We want you to feel comfortable visiting RiverPointe. However, if you are unwell, or you've traveled recently to a location suspect for COVID-19 (Coronavirus), please stay home to care for yourself. RiverPointe will here with the same quality of staffing, excursions and in-house offerings when life returns to normal.

Until current CDC guidelines change, RiverPointe will not be encouraging or scheduling activities with our residents that include gathering of groups of people. We are not quarantined; we have no known residents or guests with COVID-19 or even the flu for that matter. We simply ask that all visitors use discernment when determining whether a visit to RiverPointe is needed.

With age comes experience and we will move through, and out of this one just as we've done in all other "storms".

Regards, The Management at RiverPointe Senior Living of Littleton
